

Serial No. 09/891,696
Response dated January 11, 2006
Reply to Office Action of October 11, 2005

Attorney Docket No. PN01032AA

Amendments to the Claims:

1. (Currently Amended) A method of a server for ordering goods or services, the server being capable of communicating between a plurality of wireless communication devices and a plurality of providers of goods or services, the method comprising the steps of:

- receiving a request for the goods or services from a user by way of a device;
- accessing a database having information relevant to said user and preferences related to said goods or services;
- forwarding an order for the goods or services to a provider of said goods or services, said order dependent on said information;
- receiving a reply regarding said order from said provider;
- formulating a response concerning said order and said reply, said response formulated based on capabilities of a display of said device; and
- sending said response to said device.

2. through 10. (Canceled)

11. (Previously Presented) The method of claim 1 wherein said step of receiving a request further includes receiving a request that is formulated based on said capabilities of said device.

12. through 34. (Canceled)

Attorney Docket No. PN01032AA

35. (Currently Amended) A method of a server for ordering goods or services, the server being capable of communicating between a plurality of wireless communication devices and a plurality of providers of goods or services, the method comprising the steps of:

- receiving a request for the goods or services from a user by way of a device;
- accessing a database having information relevant to said user and preferences related to said goods or services in response to receiving the request for the goods or services;
- selecting a store associated with a provider of said goods or services based on an address associated with said user;
- forwarding an order for the goods or services to said store, said order dependent on said information;
- receiving a reply regarding said order from said store;
- formulating a response concerning said order and said reply; and
- sending said response to said device.

36. (Original) The method of claim 35 wherein said step of receiving a request includes receiving said request from a mobile device that is web enabled.

37. (Canceled)

38. (Previously Presented) The method of claim 35 wherein said step of selecting said store based on an address associated with said user includes selecting said store based on a ZIP code plus four associated with said user.
